Government Hotels and Kitchens on the Isthmus Profitable.

Hotels and mess kitchens, operated by the isthmian canal commission, netted the United States government a profit of \$1,720.42 in September, according to a report just received at the commission offices in this city. These figures include an al-lowance of 20 per cent annual depreciation on the plant required for hotel and mess kitchen purposes. The entire number of the plant required for hotel and mess meals served in the hotels was 100,984, and the charge for these was 30 cents each, while the actual cost to the government was \$28,194.57. In the mess kitchens 52,560 meals were served at 10 cents each, while the actual cost of these to the government was 9 4-10 cents each.

WHAT SULPHUR DOSE

FOR THE HUMAN BODY IN HEALTH AND DIS-

EASE. COSTS NOTHING TO TRY.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifler," tonic and cure-all, and, mind you, this oldfashloned remedy was not without merit. The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be

taken to get any effect. Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that, a single grain is far more effective than a table-

spoonful of the crude sulphur. In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small chocolate-coated pellets and contain the active medicinal princi-

ple of sulphur in a highly concentrated, effective Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and excretory organs and purifies and en-

riches the blood by the prompt elimination of waste material. Our grandmothers knew this when they dosed ns with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and

most widely used. They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and

Dr. R. M. Wilkins, while experimenting with sulphur remedies, soon found that the sulphur from Culcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncles. I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wa-fers is a proprietary article and sold by druggists and for that reason tabooel by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles, and especially in all forms of skin diseases as this rem-

Do Not Talk Openly.

While these pupils, and especially the teachers, are afraid to talk openly about these matters, or from reasons of policy refrain from doing so, the feeling is none the less pronounced, and it crops out too frequently to be kept from the ears of curious reporters.

For a long time the normal school girls have been anxious over their future, as have those who are contemplating entering the normal schools next fall and are preparing for that course in the various high schools. This condition of affairs was reported in The Star several days ago, and along with it was a statement from the sufficient of the mental schools. This assured the pupils in these schools somewhat, but they are still restless under a rumor, not yet denied, that the superintendent intends to require them to pass an examination at the completion of the course as a requisite to graduation.

Chief Feature of Work.

This has never been the practice, it is de clared, and the course of studies is not mapped out and conducted with an examination of any kind in view. Practical experience in handling classes is the chief feature of the normal school work, and from its very nature is not such as to make an examination the best, or in any way a fair, test, it is claimed.

Repeated inquiries as to what is coming are made by the normal girs of their teachers, who have only to say that on the whole they are nearly as much in the dark as their pupils.

One normal school teacher was heard to

duties in Cuba: "The President of the United States deems it of the utmost importance that the American forces here should not be engaged in any conflict with Cubans, but that disorders by Cubans should be sup-

"Troops are therefore not expected to take part in any active way in the suppres sion of disorder unless an extreme emer-gency arises in which it is absolutely necments. Their presence in a community should create such a sense of security that the rural guards and local police should be able to suppress disorders. To this end all officers and enlisted men of this command will exert every effort to manifest all the courtesy possible to Cu-bans of all parties. Parthenia Mack, colored, twenty-three years of age, was noticed on the street in South Washington last Friday night about 11:30 o'clock carrying an eighteen-monthsold child in her arms. She stated that she had been living at the house of her mother-in-law, 335 L street southwest. Three days ago, she stated, she procured a warrant for her husband, Harry Mack, for alleged failure to support her and their child. Her action, she added, angered him and she was forced to leave home. The woman and her child were made com-fortable in the house of detention Friday night and yesterday morning Mrs. Mack found a new home.

If this had been done the government would have avoided the mistake it has made in inflicting a nunishment upon the deligouent. inflicting a punishment upon the delinquent soldiers, which goes beyond the power of even the commander-in-chief. It is un-fortunate that Gen, Garlington, upon whose recommendation President Roosevelt acted so promptly, should have overlooked the fact that the power of the President to debar the discharged soldiers of the 25th infantry from government employment does not extend beyond his term of office, and cannot be made perpetual by executive acceptable. cannot be made perpetual by executive action. They may seem to be slow to those disposed to impulsive action, but they are a safeguard against conclusions formed without duly considering all of the questions involved in the determination of a given case. A reference to the army regulations will show that the discharge of a soldier without honor is carefully cuarded against abuse, and he is accorded the right to have his case considered by a board of officers before his commanding officer can give him such a discharge."

ROCKVILLE, Md., November 17, 1906. Mrs. Eliza Lloyd Clagett, wife of Mr. Montgomery Clagett, one of the county's best-known citizens, died yesterday at Monterey, Mex., where she and Mr. Clagett were visiting Mrs. Harry Harrison, a sister of the deceased. Death followed an operation for an internal trouble. She was fifty-six years of age and is survived by her bushend and the following children: Dr. the Rappalannock river for dealers on the Rappalannock river for dealers. Mrs. Eliza Lloyd Clagett, wife of Mr. husband and the following children: Dr. P. D. Clagett of Waynesville, Ohio, Herbert C. Clagett of Arizona and Carter C. Clagett of this county. Mrs. Clagett's death was entirely unexpected to her wide circle of friends in this county, to whom the announcement was a great shock. Her remains will be brought home for interment.

The petit jury for the November term of the circuit court was yesterday afternoon discharged until next Thursday morning.

The grand jury is still in session and continues to return indictments in large numbers. More than fifty true bills have already been found, a large majority of which are for violations of the local option law. As urged by Judge Henderson in his charge at the opening of court, the grand jury will "spare neither time nor expense"

At the last session of the legislature a law was enacted requiring the Baltimore and Ohio Railroad Company to place a watchman at the crossing where the acci-dent occurred, but up to this time the law has not been complied with, notwithstand-ing the fact that its existence has been called to the company's attention by the Rockville town council. The crossing is regarded as an unusually dangerous one.

jury will "spare neither time nor expense" in investigating the recent poisoning of horses and the burning of the residence of Oliver G. Henley, a resident of the Laytonsville neighborhood. Indignation among the citizens of the county generally over the outrages is evidently increasing, and it seems to be the unanimous feeling that every effort should be made to bring the guilty to justice without regard to cost.

A buggy containing Mrs. William E. Viett and little daughter and Miss Vaudia Braddock was upset in a runaway accident here yesterday afternoon. The occupants were thrown out and Mrs. Viett was quite seriously injured, but the child was unburk.

Miss Braddock suffered no more serious injuries than a bad fright and a shake-up.
